Solutions for All Stages

RF Communications Solutions

- 700/800 MHz P25 infrastructure
- Tower Top Amplifiers (TTA)
- 4/5G Mobile XHaul
- Monitoring and time synchronization

RS Composite Poles

- Reliable, modular, easy to transport
- Multiple colors and configurations
- Maintenance free, long life, easy installation

Grounding and Cathodic Protection Solutions

- Corrosion proof, easy install
- Improves network reliability
- Environmentally friendly

RF Over Fiber Solutions

- High performance analog RF to fiber converter
- Long distance transport
- remote antenna, radar, government, broadcast, satellite applications

Additional services:

- Kitting, staging and testing of equipment
- Custom RF solutions
- TAAS – testing as a service

Wireless Test Solutions:

- Field/Lab solutions for base station, cable antenna analyzers, spectrum analyzers
- Fiber backhaul solutions
- Full suite of emulation, simulation, conformance for 3-5G the lab testing
